

employ.me

Initial Project Pitch

Samuel Edson, Sabrina Drammis, Grant Gunnison, and Danny Sanchez
6.170 Fall 2014

What we do?

Make the hiring process more **manageable**

employ.me

Google	Communicating
Apple	Interviewing
DropBox	Interviewing
Microsoft	Given Offer
Amazon	Given Offer

Concepts

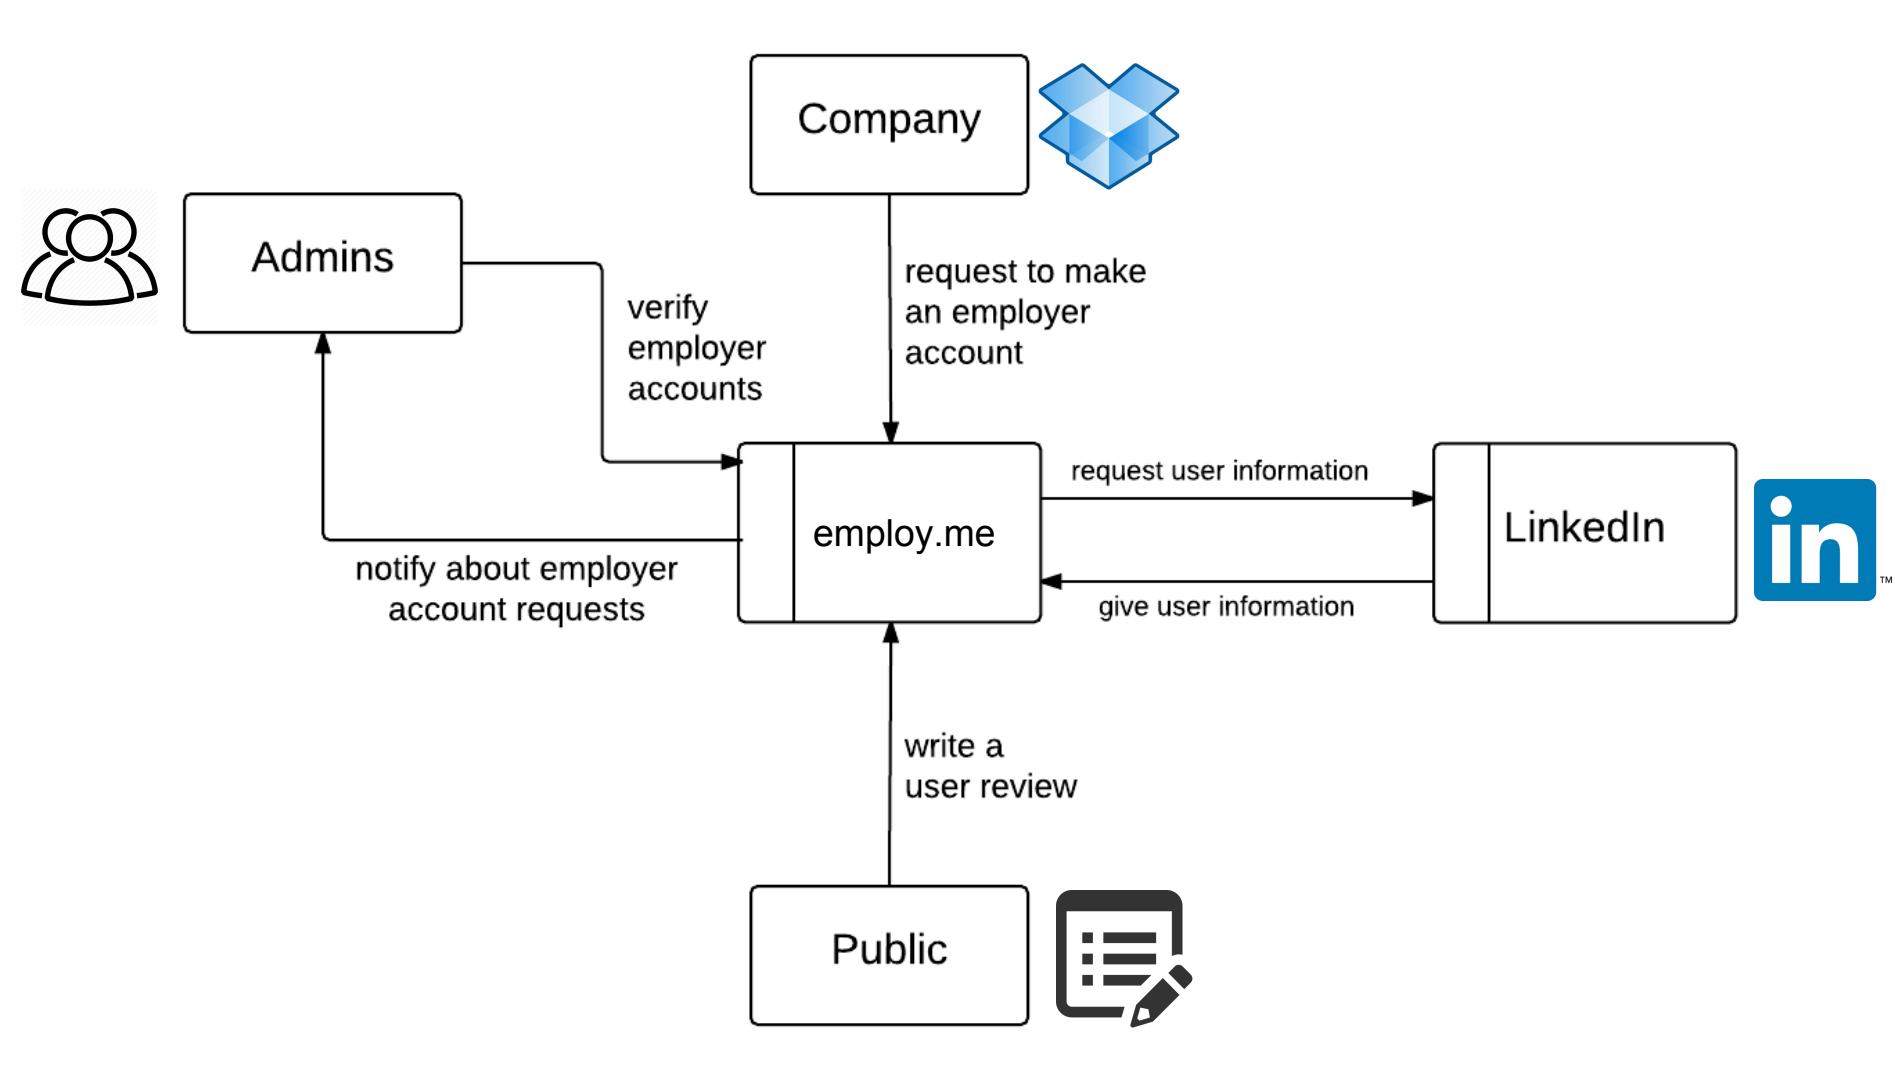

job listing: Information for a job and ability to apply

application status: Where an applicant is in the process

recommendation: Outside opinion on an applicant

Challenges

- Bogus Companies
- Bogus Recommendation

Risks

Design Risks:

Employer trust that users are MIT students

- require @mit.edu email

Implementation Risks:

Employer and student express interest at the same time

- only the student can start the process, employers can invite

Development Risks:

Can't get employers or students to join

- offer to create employer accounts for them
- once there are employers, it will be easier to get students
