Progress Report
Sabrina Drammis, Grant Gunnison, Danny Sanchez, Sam Edson
Tuesday, December 9

Employ.me

Where we're at:
- Done with the app!

Milestones:
    Achieved: Implemented all the features that we wanted. Had a clean UI overall. Made something cool!
    Missed: Couldn't make message as robust as we would of liked. Also, the UI for profile creation/editing is inconsistent with the rest of the site.

Difficulties Encountered:
- Didn't get a lot of work done until the final two days. However, everyone pulled through on the final sprint.

Changes to Problem Analysis/Design:
- No changes were made since the previous progress report.
